# PrimaLac<sup>®</sup> Microbials for Pigeons

© Foto: Peter van Raamsdonk.

Most pigeons need help maintaining proper microbial balance to control a wide range of bad bacteria. Used by Dr. John Kazmierczak as an aid in the prevention and control of **E. coli** and **Salmonella** in his pigeons, Primalac colonized the intestinal tract with good bacteria resulting in firmer droppings and improved feather quality.

## Field Tested. Field Proven.

Since 1974, Star-Labs has been committed to improving avian health and performance with PrimaLac Microbial Cultures. Today, Star-Labs is the leader in Direct-Fed Microbials for pigeons. The unique blend of beneficial bacteria in PrimaLac can offer breeders of all types of pigeons an edge in raising better performing, healthier birds.

---

This is the best feed my club has found at the best value also. The race team loft flies better on your racing feed than either of the other two top brands. First race this weekend got 13-20 birds on the first drop from 160 miles!!! This is super feed! The Breeders are on your breeding mix and I just moved the first round over and they look great! Thanks for the great feed and the great service you provide.
